

Young Bae

Sales Director, North America at Dow Chemical
Semiconductors

<http://www.directoryinventor.com/profile/view/7WKn3TrN>

Experience

Sales Director, North America

Dow Electronic Materials

10,001+ employees; Public Company; Chemicals
July 2012 - Present

Senior Account Manager

The Dow Chemical Company

Chemicals
July 2011 - July 2012

Manage CMP and lithographic materials sales and marketing in Logic and Memory segments

R&D Manager

The Dow Chemical Company

Chemicals
August 2008 - July 2011

Managed Advanced Patterning Technology group and developed lithographic materials and processes for advanced semiconductor technology nodes

Senior Scientist

Rohm and Haas Company

Chemicals
April 2001 - August 2008

Led a product development team for lithographic materials such as photoresists and antireflective coatings Managed a materials group to develop novel imaging materials via synthesis, formulation, and photolithography. Developed novel monomers & polymers for photolithographic applications

Postdoctoral Fellow

Cornell University

10,001+ employees; Educational Institution; Higher Education
March 1999 - April 2001

Prof. Chris Ober's Group at Dept. of Materials Science & Engineering Reworkable underfills for flip chip assembly in electronic packaging Fluorinated monomers/polymers and block copolymers for

157nm lithography

Visiting Scientist

Universit Pierre et Marie Curie, Paris, France

Research

March 1997 - April 1997

Education

University of Massachusetts, Lowell

Polymer Science & Plastics Engineering

1996 - 1999

Activities and Societies: President, Korean Graduate Student Association at UML

Prof. Rudolf Faust's Group at Department of Chemistry Macromolecular engineering using living cationic/anionic polymerization Nonlinear block copolymer synthesis Chain-end functionalized polymers

University of Massachusetts, Lowell

Chemistry

1994 - 1996

Kyungpook National University

Polymer Science & Engineering

1986 - 1993

Activities and Societies: Military Service at Korean Army (1988 - 1991)

Patents (16)

Photolithographic methods (5 worldwide citation)

Young Cheol Bae, Rosemary Bell, Jong Keun Park, Seung Hyun Lee

April 15, 2014: 08697338

Polymers, photoresist compositions and methods of forming photolithographic patterns
